

Gartner: Use APIs to Modernize EDI for B2B Ecosystem Integration

SEEBURGER: a vendor delivering B2B APIs alongside traditional B2B

According to Gartner

"APIs complement, rather than replace, traditional B2B technologies such as electronic data interchange and managed file transfer. Application leaders should use API capabilities to add new channels, enable automation and optimize their business ecosystem for digital business."

Discover impacts, recommendations and analysis that can help as you modernize infrastructure, enable digital business via APIs, and add APIs into your B2B strategy.

SEEBURGER

As a veteran in the B2B space, SEEBURGER helps companies to accelerate with an ever-evolving hybrid integration platform that ensures continuous flow of information across networks, via MFT, B2B/EDI, APIs and more. We help organizations with the [integration of APIs](#) so that data from multiple sources can be connected and used. We recognize that today's business needs to be able to choose their approach to API delivery. That's why we provide API integration and management alongside our B2B/EDI solution.

Gartner, "Use APIs to Modernize EDI for B2B Ecosystem Integration," Analysts Mark O'Neill and William McNeill, published 11 June 2019.
