

SEEBURGER B2B/EDI Solution

EDI Integration with Automotive OEM

BONDOLI e PAVESI - Global leader in components for Agricultural vehicles - has chosen the SAP XI/PI Automotive Industry Adapter from SEEBURGER for EDI integration with its international Business Partners. The consolidation of EDI messages, the compliance with international standards - both European and American - and the ease of developing specific Partners Profiles has led BONDOLI e PAVESI with a significant improvement in terms of flexibility and time-to-market in the exchange of Business documents with its European and American customers. All with a saving in terms of overall costs and with a high level of control over data flow.
