PEPPOL Access Point: SLMP Data Sheet

Technical information to configure your SLMP connection to the SEEBURGER Cloud

Company Details

Name:	SEEBURGER AG
Address:	Edisonstraße 1
	DE-75015 Bretten

Contact Details

Name:	SEEBURGER Cloud Service Team
E-mail:	support@cloud.seeburger.de
Phone:	+49 (0)7252 96 1443

SLMP (Secure Link Management Protocol) is a protocol used for data exchange between SEEBURGER components, for example the communication between BIS LINK and Cloud or SEEBURGER BIS and Cloud. To configure your connection to the SEEBURGER Cloud, please use this data sheet we prepared for you.

The first information is for your network administrator to open your **firewall** for successful communication. The second part contains the configuration data required to **send** data to the SEEBURGER Cloud. The last one contains information you need to **test** your connection.

In general, we want to use TLS/SSL to secure the HTTP connection AND we want data always to be signed and encrypted on SLMP level.

1. SLMP – FIREWALL Configuration

To **SEND** data to the SEEBURGER Cloud, please open your firewall to allow outgoing SLMP/HTTPS traffic:

FROM:	IP address of your SLMP system	TO:	IP ranges:	85.115.5.64 – 85.115.5.95 and
				85.115.19.120 – 85.115.19.127
			Port:	443

Note: Our firewall is already open to receive messages from you.

2. SLMP – SENDING Data to the SEEBURGER Cloud

Our SLMP Identifier:	SEECLOUDID_PEPPOL
URL:	https://slmp.seeburger.cloud:443/peppol
Security Mode:	SLMPv2.0
TLS/SSL certificate:	slmp-ssl.seeburger.cloud.cer[1]
Certificate Authority (CA):	GlobalSign Root CA
ENCRYPTION Certificate:	slmp.seeburger.cloud.cer[1]

3. SLMP – TESTING Your connection

We are not using a separate test system for the SEEBURGER Cloud. After you have finished the configuration of your EDI system, you can start testing. Send a test message from your system to the SEEBURGER Cloud and check the MDN you'll receive. **If you have problems, please check your settings (e.g. firewall) or contact our SEEBURGER Cloud Service Team.**
